PROFESSIONAL EXPERIENCE

Software Engineer

Mukuru (Cape Town, South Africa) | Sarajevo, Bosnia and Herzegovina (Remote)

May 2022 – Present

- Participated in migrating legacy monolithic applications from PHP Kohana to microservices architecture using modern PHP Symfony, improving system scalability and maintainability
- Developed and integrated multiple payment systems including mobile USSD payment solutions, bill drivers, and payment handlers using PHP, Symfony, and Docker
- Built scalable full-stack integrations that directly contributed to company revenue growth and improved payment processing efficiency

Frontend Developer

ProceraSoft | Sarajevo, Bosnia and Herzegovina

January 2022 – May 2022

- Developed custom web applications for local businesses including clothing shops and medical centers using React.js
- Created responsive and user-friendly interfaces for e-commerce platforms, dashboards, and web applications
- Delivered multiple client projects on time, focusing on modern UI/UX design principles and performance optimization

EDUCATION

Bachelor of Computer Software Engineering

Dzemal Bijedic University of Mostar
